Pitch Functional Requirements

1. Get Started Screen

Screen Name: Get Started / Landing Screen

Purpose: Allows users to enter the application and directs them to the authentication module (Login/Signup).

Functional Requirements

Requirement ID	Description
FR-GS-001	The system shall display the application logo at the top centre of the screen.
FR-GS-002	The system shall display a promotional background image related to sports facilities.
FR-GS-003	The system shall display the application tagline "Book Sports Easily".
FR-GS-004	The system shall display a short description explaining the purpose of the application.
FR-GS-005	The system shall provide a **Get Started** button.
FR-GS-006	When the user taps **Get Started**, the system shall navigate to the Login screen.

FR-GS-007	The system shall provide a **Log In to Existing Account** text link.
FR-GS-008	When the user taps the login link, the system shall navigate to the Login screen.
FR-GS-009	The screen shall be responsive across mobile devices.
FR-GS-010	The screen shall load within 3 seconds under normal network conditions.

- Users must create an account or log in before accessing booking features.
- Users cannot proceed directly to bookings from this screen.

UI Components

Logo Section

Displays:

- The Pitch Logo
- Indoor Stadium Branding

Hero Section

Displays:

- Background sports image
- Main heading:
    - BOOK SPORTS EASILY
- Description text

Action Buttons

- Get Started
- Log In to Existing Account

Functional Logic

On App Launch

```
if(userSessionExists){
  navigate('/home')
}
else{
  navigate('/get_started')
}
```

Get Started Button

Function

handleGetStarted()

Workflow

1. User clicks Get Started
2. System checks authentication state

```
if(!isAuthenticated){
  navigate('/signup')
}
```

Login Link

Function

handleLogin()

Workflow

User clicks Login link

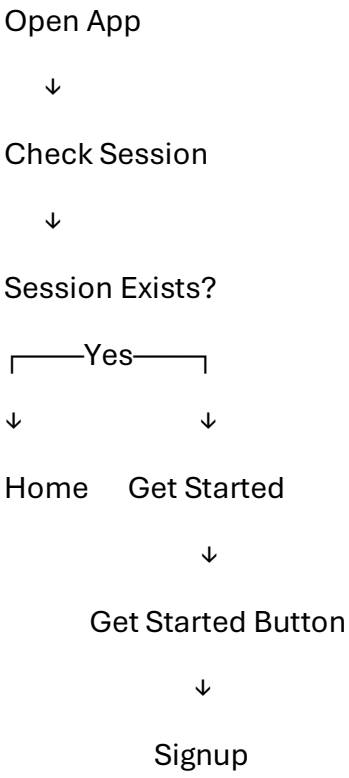

navigate('/login')

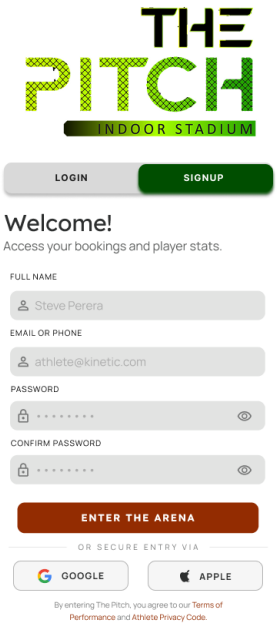

Backend Requirements

None

- This page only performs navigation.

Get Started Workflow

2. Signup Screen

Screen Name: User Registration Screen

Purpose: Allows new users to create an account.

Functional Requirements

Requirement ID	Description
FR-SU-001	The system shall display Login and Signup tabs.
FR-SU-002	Signup tab shall be active when selected.
FR-SU-003	The system shall provide a Full Name field.
FR-SU-004	The system shall provide an Email/Phone field.
FR-SU-005	The system shall provide a Password field.
FR-SU-006	The system shall provide a Confirm Password field.
FR-SU-007	Password fields shall be masked by default.
FR-SU-008	Users shall be able to show/hide passwords using visibility icons.
FR-SU-009	All registration fields shall be mandatory.
FR-SU-010	The system shall validate user inputs before registration.
FR-SU-011	The system shall ensure passwords and confirm passwords match.
FR-SU-012	The system shall verify that the email/phone is not already registered.
FR-SU-013	The system shall create a new user account upon successful validation.

FR-SU-014	The system shall automatically log in the user after successful registration or redirect to login based on system configuration.
FR-SU-015	The system shall display success confirmation after account creation.
FR-SU-016	The system shall provide an **Enter The Arena** registration button.
FR-SU-017	The system shall support Google Sign-Up authentication.
FR-SU-018	The system shall support Apple Sign-Up authentication.
FR-SU-019	The system shall display Terms of Service and Privacy Policy links.
FR-SU-020	User information shall be stored securely in the database.

Input Validation

Full Name

- Cannot be empty.
- Minimum 3 characters.

Email

- Must be valid email format.

Phone Number

- Must be valid phone number format.

Password

- Minimum 8 characters.
- Must contain at least one uppercase letter.
- Must contain at least one number.

Confirm Password

- Must match Password field.
- Duplicate accounts are not allowed.
- Users must accept application policies before registration.

3. Login Screen

Screen Name: User Login Screen

Purpose: Allows registered users to authenticate and access their accounts.

Functional Requirements

Requirement ID	Description
FR-LG-001	The system shall display Login and Signup tabs.
FR-LG-002	Login tab shall be active by default.
FR-LG-003	The system shall provide an Email/Phone input field.
FR-LG-004	The system shall provide a Password input field.
FR-LG-005	Password characters shall be masked by default.
FR-LG-006	The system shall provide a password visibility toggle icon.
FR-LG-007	Users shall be able to view or hide their password using the visibility icon.
FR-LG-008	The system shall validate mandatory fields before submission.
FR-LG-009	The system shall display validation messages for empty fields.
FR-LG-010	The system shall verify entered credentials against the user database.
FR-LG-011	Upon successful authentication, the system shall redirect the user to the Home Dashboard.
FR-LG-012	Upon failed authentication, the system shall display an appropriate error message.
FR-LG-013	The system shall provide a **Forgot Password** option.

FR-LG-014	When the Forgot Password link is selected, the system shall navigate to the Password Recovery screen.
FR-LG-015	The system shall provide a **Enter The Arena** login button.
FR-LG-016	The system shall support Google Sign-In authentication.
FR-LG-017	The system shall support Apple Sign-In authentication.
FR-LG-018	The system shall create a user session after successful login.
FR-LG-019	The system shall maintain user login status until logout or session expiration.
FR-LG-020	The system shall display Terms of Service and Privacy Policy links.

Input Validation

Email Validation

- Must be in valid email format.

Phone Validation

- Must contain valid phone number format.

Password Validation

- Cannot be empty.
- Minimum 8 characters.

- Only registered users can log in.
- Users with invalid credentials cannot access the application.

Purpose

Authenticate registered users.

4. Home Dashboard Screen

Screen Name: Home Dashboard

Purpose: Provides users access to sports facilities, promotions, memberships, bookings, and navigation features.

Functional Requirements

Header Section

Requirement ID	Description
FR-HM-001	The system shall display the application logo in the header.
FR-HM-002	The system shall display the user's profile icon.

FR-HM-003	The system shall display a personalized welcome message using the user's first name.
FR-HM-004	The system shall provide a back navigation button where applicable.

Hero Banner Section

Requirement ID	Description
FR-HM-005	The system shall display a promotional stadium banner.
FR-HM-006	The system shall display marketing content promoting facility usage.
FR-HM-007	The system shall provide a **Book Now** button.
FR-HM-008	When Book Now is selected, the system shall verify user authentication status.
FR-HM-009	If the user is not logged in, the system shall redirect to Login.
FR-HM-010	If the user is logged in, the system shall navigate to the Booking module.

Featured Sports Section

Requirement ID	Description
FR-HM-011	The system shall display available sports categories.
FR-HM-012	Each sport card shall display sport image, name, description, and availability information.
FR-HM-013	The system shall support horizontal scrolling of sports cards.
FR-HM-014	The system shall provide a View All option.
FR-HM-015	Selecting a sport card shall open sport details.
FR-HM-016	The system shall display real-time court availability.

Promotions Section

Requirement ID	Description
FR-HM-017	The system shall display active promotions and discounts.
FR-HM-018	The system shall display promotion images and discount information.
FR-HM-019	The system shall provide a View Offer button.
FR-HM-020	Selecting View Offer shall display promotion details.

Membership Section

Requirement ID	Description
FR-HM-021	The system shall display membership information.
FR-HM-022	Selecting Membership shall navigate to Membership Management.
FR-HM-023	Users shall be able to view membership status.
FR-HM-024	Users shall be able to renew or upgrade memberships.

Kids Academy Section

Requirement ID	Description
FR-HM-025	The system shall display Kids Academy information.
FR-HM-026	Selecting Kids Academy shall display academy programs and registration details.

Offers Section

Requirement ID	Description
FR-HM-027	The system shall display available offers and package promotions.
FR-HM-028	Selecting Offers shall display complete offer details.

Bottom Navigation

Requirement ID	Description
FR-HM-029	The system shall provide Home, Bookings, Packages, and Menu navigation options.
FR-HM-030	Home shall be highlighted when the Home screen is active.
FR-HM-031	Selecting Bookings shall navigate to the Booking Management screen.
FR-HM-032	Selecting Packages shall navigate to the Packages screen.
FR-HM-033	Selecting Menu shall navigate to the Application Menu screen.

Authentication & Session Rules

Requirement ID	Description
FR-HM-034	Users shall only access booking functionality after authentication.
FR-HM-035	User session information shall be maintained throughout navigation.
FR-HM-036	Logout shall terminate the active session.
FR-HM-037	After logout, selecting Book Now or Booking-related features shall redirect to Login.
FR-HM-038	After redirecting to Login due to unauthenticated access, the Back button shall not allow access to authenticated screens without login.

- Mobile responsive design.
- Secure authentication and session management.
- Support Android and iOS devices.
- Page loading time less than 3 seconds.
- Data encryption for user credentials.
- Availability 99% uptime.
- User-friendly navigation and accessibility compliance.

6. Booking Setup Screen – Step 1

Screen Name: Select Location & Sport

Purpose: Allows users to select a venue location and preferred sport before scheduling a booking.

Functional Requirements

Location Selection

Requirement ID	Description
FR-BK1-001	The system shall display available venue locations.
FR-BK1-002	Users shall be able to select a location from a dropdown list.
FR-BK1-003	The selected location shall display venue information.
FR-BK1-004	The system shall display venue image(s).
FR-BK1-005	The system shall display current operating status (Open/Closed).
FR-BK1-006	The system shall display venue operating hours.

Sport Selection

Requirement ID	Description
FR-BK1-007	The system shall display available sports for the selected location.
FR-BK1-008	Each sport shall display an icon/image and sport name.
FR-BK1-009	Users shall be able to select one sport.
FR-BK1-010	The selected sport shall be visually highlighted.
FR-BK1-011	The system shall update booking options based on the selected sport.

Facilities Information

Requirement ID	Description
FR-BK1-012	The system shall display available facility amenities.
FR-BK1-013	Amenities may include parking, cafeteria, changing rooms, washrooms, and other services.
FR-BK1-014	Facility information shall be retrieved from the selected venue profile.

Continue Booking

Requirement ID	Description
FR-BK1-015	The system shall provide a Continue button.
FR-BK1-016	The Continue button shall remain disabled until a sport and location are selected.
FR-BK1-017	Selecting Continue shall navigate to Step 2 – Date & Time Selection.

- A location must be selected before selecting a time slot.
- Only sports available at the selected location shall be displayed.

7. Booking Setup Screen – Step 2

Screen Name: Select Date & Time

Purpose: Allows users to select booking date, available time slot, and review pricing before checkout.

Functional Requirements

Booking Information

Requirement ID	Description
FR-BK2-001	The system shall display selected sport information.
FR-BK2-002	The system shall display selected venue location.
FR-BK2-003	The system shall provide a Change button to modify previous selections.

Date Selection

Requirement ID	Description
FR-BK2-004	The system shall display available booking dates.
FR-BK2-005	Users shall be able to select a booking date.
FR-BK2-006	Past dates shall not be selectable.
FR-BK2-007	The system shall display a calendar picker for future date selection.

Time Slot Selection

Requirement ID	Description
FR-BK2-008	The system shall display available time slots for the selected date.
FR-BK2-009	Time slots shall be categorized by status.
FR-BK2-010	Available slots shall be displayed in blue.
FR-BK2-011	Booked slots shall be displayed in red.
FR-BK2-012	Unavailable slots shall be displayed in gray.
FR-BK2-013	Peak-hour slots shall be identified with a special indicator.
FR-BK2-014	Users shall only be able to select available slots.
FR-BK2-015	Users shall be prevented from selecting booked or unavailable slots.
FR-BK2-016	The system shall display operating hours.

Session Summary

Requirement ID	Description
FR-BK2-017	The system shall display selected booking details.
FR-BK2-018	The system shall display sport name.
FR-BK2-019	The system shall display venue location.
FR-BK2-020	The system shall display selected date.
FR-BK2-021	The system shall display selected time slot.
FR-BK2-022	The system shall calculate booking duration.
FR-BK2-023	The system shall display pricing breakdown.
FR-BK2-024	The system shall display taxes and service charges.
FR-BK2-025	The system shall calculate total booking cost automatically.

Checkout Navigation

Requirement ID	Description
FR-BK2-026	The system shall provide a Proceed to Checkout button.
FR-BK2-027	Users shall not proceed without selecting a valid time slot.
FR-BK2-028	Selecting Proceed to Checkout shall navigate to the Checkout screen.

- Double-booking shall not be allowed.
- Availability must be verified in real time before checkout.
- Prices may vary depending on peak and non-peak hours.

Confirmation Details

Requirement ID	Description
FR-BC-001	The system shall display a booking success indicator.
FR-BC-002	The system shall display a booking confirmation message.
FR-BC-003	The system shall generate a unique booking reference number.
FR-BC-004	The system shall display booking reference details.
FR-BC-005	The system shall display booking date.
FR-BC-006	The system shall display booking time slot.
FR-BC-007	The system shall display booking location.
FR-BC-008	The system shall display booked sport.
FR-BC-009	The system shall display total payment amount.
FR-BC-010	The system shall display payment status.

Receipt Generation

Requirement ID	Description
FR-BC-011	The system shall generate a booking receipt automatically.
FR-BC-012	The receipt shall contain booking details and payment information.
FR-BC-013	The system shall provide a Download Receipt button.
FR-BC-014	Users shall be able to download the receipt in PDF format.
FR-BC-015	The receipt shall include the booking reference number.

Notifications

Requirement ID	Description
FR-BC-016	The system shall send a booking confirmation email after successful payment.
FR-BC-017	The confirmation email shall contain booking details and receipt information.
FR-BC-018	The system may send SMS or push notifications when enabled.

Navigation

Requirement ID	Description
FR-BC-019	The system shall provide bottom navigation options.
FR-BC-020	Users shall be able to navigate to Home, Bookings, Packages, and Menu screens.
FR-BC-021	Selecting Bookings shall display booking history including the newly created booking.

- A booking is considered confirmed only after successful payment.
- Each booking reference number must be unique.
- Receipts cannot be generated for failed or cancelled bookings.

Confirmation Status

Displays

Booking Confirmed

along with a success icon.

Booking Information

Displays:

- Booking Reference Number
- Date
- Time Slot
- Location
- Sport
- Total Amount
- Payment Status

Development Logic

Retrieve booking details

- GET /api/bookings/{BookingID}

Returns

- Booking Reference
- Sport
- Location
- Date
- Time
- Amount
- Payment Status
- Transaction ID

Download Receipt

Development Logic

When selected

- GET /api/bookings/{BookingID}/receipt

The server generates a PDF receipt containing:

- Booking Number
- Customer Name
- Sport
- Location
- Booking Date
- Booking Time
- Payment Details
- Tax Breakdown
- Total Paid

The receipt is downloaded or shared.

Notification Services

After booking confirmation:

The system automatically:

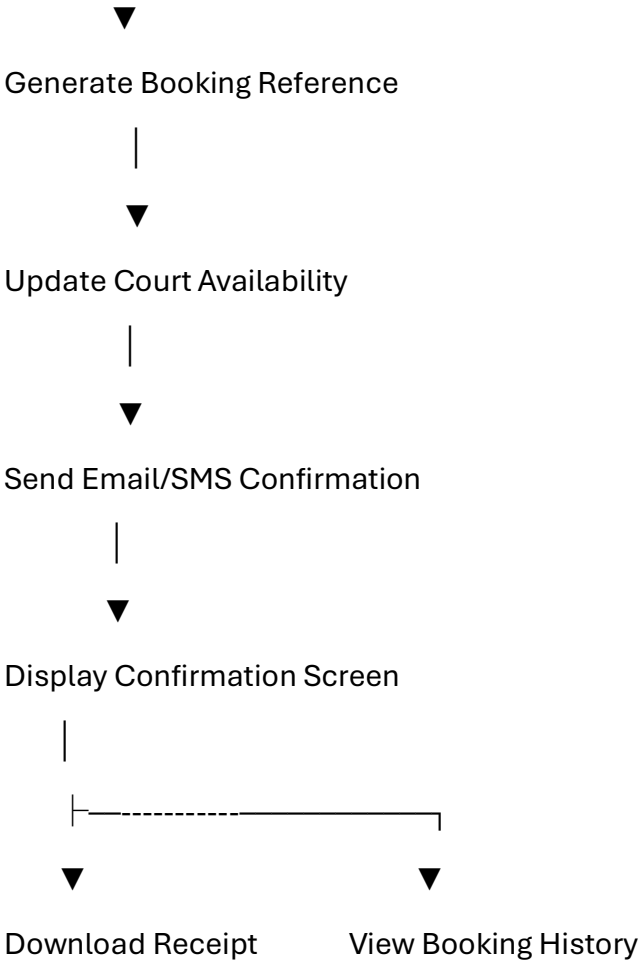

- Sends booking confirmation email (Not mandotory).
- Sends SMS notification.
- Sends in-app notification.
- Updates booking history.
- Updates court availability.

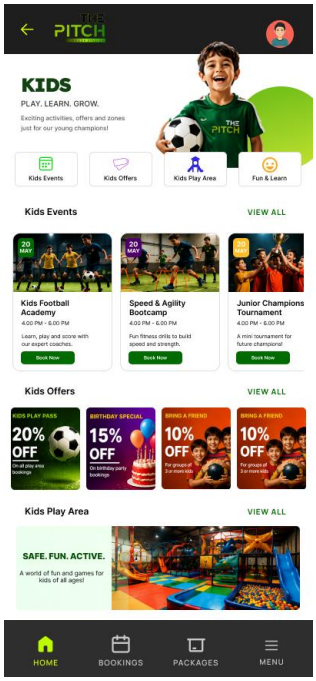

Booking Confirmation Workflow

Payment Successful

10. Kids Dashboard Screen

Screen Name: Kids Module Dashboard

Purpose: Provides parents and guardians access to kids' events, offers, play areas, educational activities, and promotional programs available at The Pitch Indoor Stadium.

Functional Requirements

Header Section

Requirement ID	Description
FR-KD-001	The system shall display the application logo in the header.
FR-KD-002	The system shall display the user's profile icon.
FR-KD-003	The system shall provide a back navigation button.
FR-KD-004	Selecting the back button shall navigate to the previous screen.

Kids Overview Section

Requirement ID	Description
FR-KD-005	The system shall display the Kids module title and introductory description.
FR-KD-006	The system shall display a promotional image/banner related to children's activities.
FR-KD-007	The introductory content shall be configurable through the administration panel.

Quick Access Menu

Requirement ID	Description
FR-KD-008	The system shall display Kids Events shortcut.
FR-KD-009	The system shall display Kids Offers shortcut.
FR-KD-010	The system shall display Kids Play Area shortcut.
FR-KD-011	The system shall display Fun & Learn shortcut.
FR-KD-012	Users shall be able to select any shortcut option.
FR-KD-013	Selecting a shortcut shall navigate to the corresponding section or screen.

Kids Events Section

Requirement ID	Description
FR-KD-014	The system shall display upcoming kids' events.
FR-KD-015	Each event card shall display event image.
FR-KD-016	Each event card shall display event title.
FR-KD-017	Each event card shall display event date.
FR-KD-018	Each event card shall display event time.
FR-KD-019	Each event card shall display event description.
FR-KD-020	Each event card shall display a Book Now button.
FR-KD-021	Selecting Book Now shall initiate event registration.
FR-KD-022	The system shall provide a View All option.
FR-KD-023	Selecting View All shall display all available kids' events.

Kids Offers Section

Requirement ID	Description
FR-KD-024	The system shall display active kids promotional offers.
FR-KD-025	Each offer card shall display offer image.
FR-KD-026	Each offer card shall display discount percentage or benefit.
FR-KD-027	The system shall retrieve offer information from the promotion database.
FR-KD-028	The system shall provide a View All option.
FR-KD-029	Selecting an offer shall display detailed offer information.

Kids Play Area Section

Requirement ID	Description
FR-KD-030	The system shall display Kids Play Area information.
FR-KD-031	The system shall display play area images.
FR-KD-032	The system shall display a short description of available activities.
FR-KD-033	Selecting the section shall display detailed play area information.

Bottom Navigation

Requirement ID	Description
FR-KD-034	The system shall provide Home, Bookings, Packages, and Menu navigation options.
FR-KD-035	Users shall be able to switch between modules using bottom navigation.
FR-KD-036	The currently active menu item shall be highlighted.

- Kids events shall only display active and published events.
- Expired offers shall not be displayed.
- Event registration may require user authentication.
- Event capacity limitations shall be enforced.

Offer Details Workflow

13. Profile Section

Screen Name: Profile

Purpose: Allows users to view their account information. Edit profile, upgrade plan and sign out

Functional Requirements

Requirement ID	Description
FR-PROF-01:	The system shall display the user's profile photo
FR-PROF-02:	The system shall display the user's full name
FR-PROF-03:	The system shall display the user's membership tier as a badge (e.g., "GOLD MEMBER")
FR-PROF-04:	The system shall display the user's member-since date and tier label (e.g., "Member since October 2022 • Professional Tier")
FR-PROF-05:	The system shall display a profile level indicator (e.g., "PRO LVL 94") retrieved from the backend, overlaid on the profile photo.

Stats Panel

Requirement ID	Description
FR-STAT-01:	The system shall display the user's total loyalty/reward points
FR-STAT-02:	The system shall display the number of sessions played
FR-STAT-03:	The system shall display a points-to-next-tier indicator (e.g., "2,550 pts to Platinum") calculated from backend data.
FR-STAT-04:	The system shall display a session trend indicator (e.g., "+12% vs last month")

Digital Arena pass

Requirement ID	Description
FR-PASS-01:	The system shall display the user's unique Member ID retrieved from the backend (e.g., KA-992-864-82).
FR-PASS-02:	The system shall display the user's access level retrieved from the backend (e.g., "ALL-COURTS ACCESS").

Member Benefits

Requirement ID	Description
FR-BEN-01:	The system shall display the benefits applicable to the user's current membership tier,
FR-BEN-02:	Each benefit shall display an icon, a benefit name, and a short description.
FR-BEN-03:	The benefits list shall update dynamically if the user's membership tier changes.

Quick Actions

Requirement ID	Description
FR-QA-01:	The system shall display an "Edit Profile" action that, when tapped, redirects the user to the Edit Player Card screen.
FR-QA-02:	The system shall display an "Upgrade Plan" action that, when tapped, redirects the user to the Subscription Plan screen.
FR-QA-03:	The system shall display a "Sign Out" action that, when tapped, terminates the user's session and redirects to the Login screen.
FR-QA-04:	The Sign Out action shall clear all locally stored session tokens and user data upon execution.

14. Edit Profile Screen

Screen Name: Edit Player Card / Edit Profile

Purpose: Allows users to update their personal information and profile image.

Functional Requirements

Profile Image Management

Requirement ID	Description
FR-EP-001	The system shall display the current profile image.
FR-EP-002	Users shall be able to upload a new profile image.
FR-EP-003	Users shall be able to remove the existing profile image.
FR-EP-004	The system shall support image preview before saving.
FR-EP-005	Supported image formats shall include JPG, JPEG, and PNG.

Personal Information

Requirement ID	Description
FR-EP-006	The system shall display Full Name field.
FR-EP-007	The system shall display Email Address field.
FR-EP-008	The system shall display Phone Number field.
FR-EP-009	The system shall display Date of Birth field.
FR-EP-010	Users shall be able to edit personal information.
FR-EP-011	The system shall validate user input before saving.

Update Profile

Requirement ID	Description
FR-EP-012	The system shall provide an Update Profile button.
FR-EP-013	The system shall save updated information to the database.
FR-EP-014	The system shall display a success message after updating.
FR-EP-015	The system shall refresh displayed profile information after successful update.

Input Validation

Field	Validation Rule
Full Name	Required, minimum 3 characters
Email Address	Must be valid email format
Phone Number	Must contain valid phone number
Date of Birth	Cannot be a future date
Profile Image	Maximum file size as defined by system configuration

- Users may only edit their own profile.
- Email addresses must remain unique across the system.
- Changes shall be recorded in audit logs for security purposes.
